Dear Readers,

Journal of Clinical and Molecular Endocrinology expresses sincere gratitude to all its elite panel of editorial board members for their continuous efforts, valuable support and encouragement throughout the publication journey of the journal, and the journal publish quality of research and becoming as one of the leading and well-recognized broadcaster of scientific outcomes in the field of studies related to findings developments from public health, global health policy planning and implementation research.

The objective of **JCME** is to publish high-quality original research papers, survey reports, case studies, narratives, review article, short communication, clinical data, epidemiologic studies, thesis and relevant and insightful reviews. Every year we published with different volumes and different issues. Each issue of the journal covered with different types of topics in the field of Molecular Endocrinology issues, Molecular Biology & Endocrinology, Endocrine Treatment, Thyroid Endocrinology, Endocrinology Nurse Practitioner, Endocrine Disorders, Advances In Endocrine Diagnosis, Sub Clinical Hypothyroidism, Paediatric Endocrinology Practice, Experimental Endocrinology, Endocrinology and Metabolism, Endocrine Genetics, Molecular Genetics In Paediatric Endocrinology. All published papers, are subject to the journal's double-blind review process. The topics for the 2019 year were varied and exciting. The biggest category was probably Thyroid endocrinology, endocrinology Nurse Practitioner, but there is so much more involving scientists as academics and young researchers. The current volume of the journal is 5 with issue 2. The Timeline of processing from Submission to Publication is 45 days. Manuscripts will be published within 7 days of acceptance.

The social media can play a key role in spreading the research work increased visibility, citation and ultimately the impact of published works. We promote published articles to the social media. This will benefit the researcher to increase reputation and attendant career progression. For example, the Facebook account, Twitter, LinkedIn.

According to the Google Analytics, more than 2,689 readers are visiting to our journal websites for submitting manuscripts, to browse the latest research published on public health and health issues and to refer the published content for conceptualizing their research study, deriving research hypotheses, case reports and validating their contributions. Readers from the major countries including United States, Japan, United Kingdom, India, Egypt and Nigeria visit our journal domain to learn about the ongoing research activities in this field.

On behalf of the iMedPub Publishing JCME Editorial Board and the whole Editorial Office, I would like to express our gratefulness to the authors of articles published during the past years, and to acknowledge generous help which both the authors and editors obtained from the peer-reviewers.

Our aspiration is to facilitate scientific discovery in new ways by exploring new technologies in the field of Clinical and Molecular Endocrinology.

Regards,
Editorial team
